

Capital moves through relationships. We fix that.

AI-powered investor matching for founders — stage, sector, check size, geography.

Why DealMatch?

- Capital is still relationship-gated. Most founders never reach the right investor.
- DealMatch scores every connection across 5 dimensions: Stage, Sector, Check Size, Geography, Advisor Depth.
- Only matches scoring 35/100 or above surface. No noise, no cold lists — just fit.
